

Hybrid edition
IMCAS ASIA 2021
LIVE Talk Show

After the success of the first edition, the "Talk Show" returns with an upgraded format of lively debates on a controversial topic. The talks are informal discussions that take place both days of the congress for 30 minutes in between sessions, either following or preceding a session that shares a theme. Check out the diverse topics!

--	---	---	---

The "Talk Show" is a special session within the IMCAS Asia 2021 program with a new teaching format to keep attendees engaged even during the breaks.

The purpose is to stimulate reflection and spark interest in attendees through laid-back but heated discussions. Follow the "Talk Show" and interact with the speakers whose role is to provide you with "food for thought" that will push you to question, digest, and eventually master all that you've learned during the sessions.
